

GÉNIE DES PROCÉDÉS

2ND SYMPOSIUM ON CHAIN TRANSFER CATALYSIS FOR SUSTAINABILITY

OBJECTIFS

We are delighted to bring together the leading experts in Coordinative Chain Transfer Polymerization in Lyon. We hope that this symposium will provide a stimulating forum for scientific exchange between young doctoral students and established researchers. Welcome!

CONTENU PÉDAGOGIQUE

Organization: Christophe Boisson, CNRS Lyon CP2M & Marc Jacquin, Michelin

We are delighted to bring together the leading experts in Coordinative Chain Transfer Polymerization in Lyon. We hope that this symposium will provide a stimulating forum for scientific exchange between young doctoral students and established researchers. Welcome!
